

CURRICULUM VITAE

Fernando Díaz Hurtado, Ph.D.

Email: fernando.diazh@usm.cl

Fernando Díaz is a Professor of Finance and Economics in the Department of Commercial Engineering at Universidad Técnica Federico Santa María. He is also the Director of the Management Analytics and Data Science program and the MBA program. His primary research interests include Corporate Finance, Banking, and Market Efficiency. He specializes in Applied Econometrics, Machine Learning, Natural Language Processing (NLP), and Quantitative Methods for Business.

He teaches courses in financial theory, econometrics, and machine learning. He has held several distinguished positions, including serving as an expert economist for the National Economic Prosecutor's Office, a member of the Technical Investment Council of the Superintendency of Pensions, and a member of the Civil Society Council of the Superintendency of Banks and Financial Institutions of Chile, which he chaired in 2017.

He is also a business consultant specializing in corporate governance, asset valuation, and regulatory and competition issues. In addition, he has provided consulting services to the Inter-American Development Bank (IDB). He currently serves as a member of the Surveillance Committee of various investment funds and as Chairman of the Board of Detacoop.
